## PROFESSIONAL SUMMARY

Experienced System Engineer with a demonstrated history of working in the information technology and services industry and Passionate Front End Web Developer with 4.2 years of experience working in different projects of UI development and enhancement.

I love brainstorming through difficult problems and coming up with effective solutions. Since then I have been trying out new languages, spending time in making a few small web applications.

## EXPERIENCE

### **Tata Consultancy Services, Bangalore — Systems Engineer**

Aug 2017 - PRESENT

As a software engineer, most of my work involves:

- Working on JavaScript based projects
- Deployment using Jenkins
- Building apps in Angular 6 in Visual Code
- API integration
- Setting the right conventions in any project to bring uniformity,
- Taking initiatives to improve product and tech on my own and
- Improving the front end skills

I started my career with C#(ASP.Net), SQL, and then moved on to Javascript specifically the Angular framework. I have designed the Front End for the application, by using Javascript and other Ui technologies(kendo, Bootstrap). Then moved to Angular 7, and implemented many features like data binding using angular material. I work in an Agile methodology.

## SKILLS

JS developer: ES6,

Basic NodeJS,

Frameworks: Angular 7

HTML5, CSS3, Bootstrap, JQuery

## AWARDS & ACHIEVEMENTS

On the spot award to deliver the work products with quality and take up new challenges

Best team Award in Lafarge Holcim project

Appreciation from the client for Ui development

Award for Green Innovation event in college fest

## **Tata Consultancy Services, Bangalore –Assistant Systems Engineer**

Jun 2016 - Jun 2017

- Ui development -Using AngularJs, Html, CSS
- It was an existing application where the client had asked us to redesign it in a single page application and modify the HTML pages and add different functionalities to it.
- Tools used were Notepad ++
- Enhancement Project - Worked on Problem tickets using C# for front end in Visual studio and backend have used SQL
- Worked on Change Requests given by the clients to make changes in the front end Ui.

### **SIDE PROJECT**

Created a Portfolio with Front end tech stack and deployed it on Heroku

<https://portfolio-deploy-app.herokuapp.com/>

### **TRAINING & CERTIFICATIONS**

- External Certification is done in Front End Web Developer I Nanodegree in Udacity
- Digital Competencies in IEvolve for Angular 2, Html, CSS, and Bootstrap
- Learner on Hacker earth, have solved problem statements on it
- Active learner on TreeHouse for learning different tracks on Front End Web Development, Intermediate C#, Full-stack Javascript, APIs, responsive layouts
- Completed training in C# asp.Net and SQL

### **TECH STACK:**

Angular, Javascript, JQuery, HTML, CSS

### **EDUCATION:**

GITAM Institute of Technology, GITAM University, Visakhapatnam – *B.Tech Biotechnology* Jul 2012 - May 2016.

I have scored an 8.5 GPA during my engineering.

## HOBBIES

- Painting and sketching
- Dancing
- To learn new things in any field
- Reading articles on Medium
